About Pier Point

Pier Point Restaurant was lovingly given a new lease of life 9 years ago by the current local owners, who have over 25 years' hospitality experience between them. Now as one of the most popular restaurants in the area they continually strive to maintain their high levels of service while serving fresh, local produce.

With a rich blue colour splashed across one wall featuring black and white 1950s pictures of life by the sea, the remaining structure is encased by floor to ceiling glass, enabling you to take in the amazing views of the bay and cliff face. Freshly cut flowers and romantic candles decorate the dark wood tables, and tall-backed brown soft leather chairs ensure your comfort. With stunning postcard views of Torbay, relaxed informal dining or casual drinks, Pier Point is the ideal environment to celebrate with family and friends: excellent service with attention to detail, personality and a smile, scrumptious food and a great selection of drinks.
